Late fee applied to registrations received after 9/16

Questions/Comments? info@darienafterschool.com; 888.212.3837

Acting Studio	Play theater games and establish the building blocks to improvisation and drama. Design scenery and props and write your very own script to perform in front of family and friends. Focus of this class is freeing the creative spirit, building ensembles, and exploring the imagination.
Art Exploration	Use unorthodox tools----salad spinners, balls, kitchen utensils----to create a one-of-a-kind project with stencils, decoupage, collage, clay and more! Look at your world from a different angle, have fun and let your imagination soar.
Blast Off Math	Blast Off Math is offered for 5th graders who love math and enjoy solving challenging math problems. Under the guidance of the teacher, students will work in small groups to develop possible solutions, play games and explain their mathematical thinking. Students will gain an introduction to algebraic concepts, integers and rational numbers, linear relationships, order of operations and basic equations using middle school materials.
Budding Entrepreneurs	If you like "Shark Tank," this class is for you! Students select a "business idea," learn to develop a business plan and make a "pitch" presentation on the last day. Students also role-play as CEOs for leading companies (Apple, Under Armour, Amazon, Tesla, Coke) and work in groups to make strategic recommendations to address real business issues. Students enhance their problem-solving skills, develop business savvy and cultivate a strategic mindset as future leaders.
Build It, Break It, Mold it, Make It	The wonders of engineering, science and art come together for this great hands-on class. Work with clay, build with LEGO, dissect owl pellets, build with newspaper, create recycled sculptures, and more! Learn about the builders and decomposers of the animal world.
Chess	All levels welcome. New players welcome to learn how to play a full game of chess and how to write down moves to learn from mistakes. Experienced players learn strategies and tactics to help improve their game. All players will learn about the etiquette and strategy of a game that is truly a great lifetime activity for young and old alike.
Continental Math League	Join other students and work together to compete in three national math problem solving contests.. Students meet weekly to practice for the contests, During class, students are introduced to important mathematical concepts and learn major strategies and develop mathematical flexibility in problem solving. This class runs from December 13 to March 27 and is for students of all math levels in grades 2 and 3.
Cut Paint Paste	What can you make with scissors, paint and glue?! Exercise your fine motor skills while exploring your creative side with both structured activities and open ended 'free' play.
Golf	Learn the rules of golf with these fun lessons. Each class focuses on rules and etiquette, character development, and physical fitness and education. Instruction is appropriate for all levels. Instructional golf equipment is provided.
Math Olympiad	Join other mathletes and work together to compete in four national math problem solving contests from November to March. Students meet weekly to practice for the contests, During class, students are introduced to important mathematical concepts and learn major strategies and develop mathematical flexibility in problem solving. This class runs from October 17 to March 12, and is great for all levels of Math students in grades 4 and 5.
Mission Impossible	Ride scooters, walk across foam balance beams, hunt for hidden treasures and face obstacles while wearing blindfolds! This is all about teamwork and having fun while strategizing and planning different ways to get your team across the gym floor without touching it! Who is up for the challenge?
Photography	Attention young shutterbugs! In this eye-opening adventure into the world of photography, you'll learn the tricks of the trade, just like the pros use! From blue skies and green trees to friendly smiles and sandaled feet you'll capture it all for your very own portfolio. And because all young stars deserve their time to shine, we'll conclude with a gallery to show off your artistic images to friends and family! Cameras are provided.
Robotics with EV3 Mindstorms	Begin exploring robots by building a few. This design and engineering class focuses building and animating robots with pre-built programs. Results are fast and gratifying! This class encourages the engineer and tinkerer to have fun, play and build. Students take home pictures of their creations.
Royle STEAM Club	Have fun after school with STEAM! Each week, focus on a different STEAM activity, including math games, hands-on science experiments, engineering challenges and more.
SNAX!	Calling all mini-chefs! Kids will make exciting no-bake snacks--some will be savory and others sweet. Students will also learn culinary skills such as chopping, mixing and emulsifying as well as proper food handling. Cooks will get to sample what they make each session. Note: Nuts, Eggs, Soy, and Wheat may be used in all recipes.
Spartan Jr.	A Spartan has great courage, self-discipline and strength. Start your training with fitness activities such as string maze obstacles, roll the tire races, tunnel climbing, javelin throwing, tug of war and much much more!
Sports Spectacular	Designed for the kid who likes to play it all. Mixing it up each week, students learn fundamentals and strategies while having loads of fun. Focus on teamwork, cooperation, tolerance, sportsmanship, and fair play. Games include kickball, mattball, sharks and minnows, steal the bacon, soccer, dodgeball, football, basketball and floor hockey. Don't forget your sneakers, this class will be fast paced and fun!
Ultimate Recess	Enjoy all the best things about recess! Play favorite games like wall ball, four square, smith, sharks and minnows, tag, jump rope, and more! A great way to extend the best part of the school day!
