Questions? info@DarienAfterSchool.com / 888.212.3837

Blast Off Math	Blast Off Math is offered for 5th graders who love math and enjoy solving challenging math problems. Under the guidance of the teacher, students will work in small groups to develop possible solutions, play games and explain their mathematical thinking. Students will gain an introduction to algebraic concepts, integers and rational numbers, linear relationships, order of operations and basic equations using middle school materials.
Chess	All levels welcome. New players welcome to learn how to play a full game of chess and how to write down moves to learn from mistakes. Experienced players learn strategies and tactics to help improve their game. All players will learn about the etiquette and strategy of a game that is truly a great lifetime activity for young and old alike.
Crochet Away!	Crochet all day... bracelets, hearts, bows, butterflies, flowers and the opportunity to donate your own hand made baby hat for premature babies. All levels welcome to this knitting circle!
Golf	Learn the rules of golf with these fun lessons. Each class focuses on rules and etiquette, character development, and physical fitness and education. Instruction is appropriate for all levels. Instructional golf equipment is provided.
Inventor's Club	Inventions solve our world's problems every day. Use recycled materials, building blocks, LEGOs and more to solve an a new 'problem' each week. We need YOU to bring your open mind, creative juices and invent the next greatest thing.
Let's Get Crafty!	Bring you imagination to the art table in this fun filled craft class full of beading, painting, mosaics, jewelry, duct tape & more! Let your creativity reign as the the only requirement is to have fun while crafting around the table with classmates.
Magic!	Abacadabra! Calling all budding magicians—learn to perform astounding tricks this spring! Reading your audience's minds will be a piece of cake after you master the ESP Control and Spirit Plates. Dazzle all your friends with the color-changing Chameleon Chip and the Exploding Dice. At the end of the session, you'll share your new skills with friends and family in a real magic show...and keep all the tricks! Class is designed to enhance communication and performance skills in a supportive, creative atmosphere. Learn it. Perform it. Keep it. Discover the talent you have up your sleeve.
My First Hot Cocoa Stand	Set up your own 'Cocoa Stand' and get a taste of what it means to be an entrepreneur. Explore the concepts of product development, marketing, finance and strategy, in a supportive and collaborative environment. From advertising to forecasting profits and, of course, experimenting and taste testing different recipes, students learn what it means to build a business from the ground up!
Ninja Boot Camp	Sneak in to the gym after school and transform in to a Ninja in training! Use your Ninja stealth and speed as you work your way through different stations that test your strength, endurance and flexibility while maintaining your Ninja cool.
Robotics with EV3 Mindstorms	Begin exploring robots by building a few. This design and engineering class focuses building and animating robots with pre-built programs. Results are fast and gratifying! This class encourages the engineer and tinkerer to have fun, play and build. Students take home pictures of their creations.
Rockin' Recess	Yes! MORE Recess!!! Play favorite games like wall ball, four square, smith, sharks and minnows, tag, jump rope, and more! A great way to extend the best part of the school day!
Royle STEAM Club	The opportunity for exploration here is limitless! Each week, focus on a different STEAM activity including Science experiments, Technological advancements, Engineering challenges, Artistic creations, or Math games.
Score Score! Basketball, Soccer and More	Each week, alternate between basketball and soccer as you hone your skills in ball handling, passing, footwork and more - all while having fun and practicing teamwork and good sportsmanship. Beginners and seasoned players are all encouraged to join this fast paced, sweat inducing afternoon of fun!
Slimy, Scaly, Ooey, Goopy Science	Time to get your hands dirty! Planting, mixing Polymers (aka making slime), making recycled Paper and more to discover the world of Herpetology, the science of reptiles and amphibians. And that's not all... meet worms, explore the fungus among us, and more!
Spartan Junior	A Spartan has great courage, self-discipline and strength. Start your training with fitness activities such as string maze obstacles, roll the tire races, tunnel climbing, javelin throwing, tug of war and much much more!
Winter Wonderland Art	Roll up your sweater sleeves for Ms. Dunbar's seasonal Art Exploration. Using unorthodox tools reminiscent of winter (cotton balls, wool, charcoal) to create a one-of-a-kind project with stencils, decoupage, collage, paint, clay and more! Look at your world from a different angle, have fun and let your imagination soar.
