<b>Architecture and Engineering</b>	Sketch your own building or bridge and construct a model while learning about the elements of design, drafting, measurement, and geometry. Student's visions come to life using wood, cardboard and other materials. Collaboration and trouble shooting are all part of the team effort!
<b>Beginner Tennis</b>	Join Mrs. Cardamone as you learn the basics of tennis--forehand, backhand, volley, serve, scoring, strategy, and overhead smash while playing fun-filled games and drills. All equipment provided. No prior experience needed.
<b>Chess</b>	All levels welcome. New players welcome to learn how to play a full game of chess and how to write down moves to learn from mistakes. Experienced players learn strategies and tactics to help improve their game. All players will learn about the etiquette and strategy of a game that is truly a great lifetime activity for young and old alike.
<b>Clay Club</b>	Get your hands messy in this fun clay building class! Use different types of molding materials, including model magic, air drying clay and non-drying clay, and techniques to create your own animals, bowls, cups and a very special sculpture of yourself. A smock from home is encouraged.
<b>Jedi Engineering Using LEGOs</b>	The Force Awakens in this introductory engineering course for all young Jedi! Explore engineering principles with LEGOs as we construct the Ewok Village on Endor, fly through space on our X-wings and defend the Echo Base on Hoth. Create motorized and architectural projects with your imagination to defeat the Empire!
<b>Little Buds Garden Club</b>	Celebrate Spring and learn about the garden... seeds to flower and fruit and everything in between. Budding gardeners explore the journey of the mighty seed through active gardening and art. Get your hands dirty tilling the soil, planting seeds and fertilizing vegetables, herbs and flowers and make a garden inspired craft each week. At the end of the session, students take home their very own kid-sized garden in a pot.
<b>Magical Mindfulness</b>	BE mindful - of your inner and outer experiences, emotions and thoughts. Explore mindfulness through gratitude games and journals, breath awareness to help calm our bodies, simple yoga poses and stretches, mindful coloring and more. Focus on positive self-talk and esteem, while boosting friendships and being a supportive role model.
<b>Mix it up Sports</b>	Matball, kickball, sharks and minnows, steal the bacon, soccer, flag football, basketball, floor hockey... the sports are endless and they are mixed up each week. Bring your team spirit, and get ready for cooperation, tolerance, sportsmanship, and fair play. Hit the ground running in this action packed class - and don't forget your sneakers!
<b>Ninja Warrior Boot Camp</b>	Sneak in to the gym and transform in to a Ninja in training. Use your Ninja stealth and speed to work your way through different stations that test your strength, endurance and flexibility while maintaining your 'Ninja cool.'
<b>Paint Party</b>	Party with paint! Using acrylic paint on stretched canvas, mix color, experiment with brush strokes and techniques, and create your own still-life, self-portrait and abstract to display at home. A smock from home strongly encouraged.
<b>Rockin' Recess</b>	"Rock Out" to favorite recess games like wall ball, four square, smith, sharks and minnows, tag, jump rope, and more! A great way to extend the best part of the school day!
<b>Score, Score, Basketball, Soccer and More!</b>	Two favorites in one! Hone ball handling, passing, footwork and more, and see how cross training can improve your fitness and coordination across all physical activity. Beginners and seasoned players are all encouraged to join this fast-paced, sweat inducing, afternoon of fun!
<b>SNAX!</b>	Calling all Chefs! Make yummy no-bake snacks, some savory and others sweet, while honing your culinary craft with chopping, mixing, emulsifying and, of course, proper food handling and nutrition. All great chefs sample what they make! Note: Nuts, Eggs, Soy, and Wheat may be used in all recipes. Please contact us if your child has a food related allergy.
<b>Spring into Art!</b>	Discover what you can use to make art---salad spinners, balls, kitchen utensils, eye droppers and more! Create one-of-a-kind masterpieces with block printing, stencils, decoupage, collage and clay. Each week features a different spring or nature-based theme. Look at your world from a different angle, have fun and let your imagination soar!
