**ONLINE CODING CLASSES FOR ELEMENTARY SCHOOLS IN DARIEN and
GREENWICH**

FOR FAMILIES AFFECTED BY SCHOOL CANCELLATIONS

Dear parents,

To help lessen the impact at home from missed classes at your child's school, Happy Code Club is offering your student enrolled at a Darien and Greenwich Public School, an **online** class in Coding called ***Game Design in Scratch Programming*** for Elementary School Students with an age appropriate class running daily for three weeks for Grades 1-2 and for Grades 3-5 starting on Monday March 16 and ending on April 3.

TO REGISTER PLEASE VISIT [US ONLINE](#) registration is now open with limited seats

To register or get more information, [please click here and fill out the form](#). **NOTE: click on your School's Town and choose a class.** After you register, you will receive an email confirming your registration. Two emails will follow, one is a confirmation email the other will come a few days later with further instructions to ensure your computer and your student are ready to start on time, so please look for the second email as it will contain important information. Chat support is available on our website at www.happycodeclub.com

All students participating in these live online classes will be in the virtual company of other students in the same grade from Darien and Greenwich Schools. Classes will be led by a Coding Teacher hosting each class live from Happy Code Club in Stamford.

CLASS DESCRIPTION

Game Design in Scratch

Technologies: Coding via [Scratch](#)

Description:

In this fun coding class kids go behind the scenes of video games to learn how they are made by creating their own game using the programming language Scratch. Kids create animations, develop stories, and solve problems making this class perfect for an introduction to computer programming or as continuation from previous courses. The computer science concepts learned in this class can be used for many coding projects kids are likely to encounter in future endeavors. It's fun from the first minute to the last, so come and be a Game Programmer!

Prerequisites: Ability to follow written and visual instructions and proper use of mouse and keyboard. See technical stuff below for computer requirements.

DATES, TIMES AND PRICING

Class Options: per grade level **per day for three weeks \$60**. If schools remain closed beyond three weeks, we will offer more class options beyond that time. You may register for as many days of the week as you want, just add each day to your shopping cart and check out.
